Dear Mr. Geary,

It was a great pleasure for all of us here to receive your long and enthusiastic letter of May 19th, reporting such excellent reception of our station.

We have checked the detailed reports you send us, and have found them to be quite correct. For your information, we are sending you a schedule of all our broadcasts at the present time.

The tribute you pay to the work we are doing through the Voice of Fighting France to make the Fighting French Movement widely known throughout the world is particularly appreciated by us here. Letters such as yours justify our satisfaction with the progress we have achieved since we first started our activities in the capital of French Equatorial Africa with only a morse transmitting station. We are now in process of constructing a new and powerful station which General de Gaulle recently inspected. When this station is in operation, which should be by the end of the year, we shall be broadcasting on several wave-lengths simultaneously and in many languages. Reception should then be perfect in every quarter of the globe.

We shall always be interested to hear from you giving us helpful and constructive suggestions on the policy of our programm es and anything you can do to make the Voice of Fighting France known among your friends and in the local press will be highly appreciated. The spirit of your letter, confiden t as it is in the ultimate triumphant of the democratic ideals so nobly upheld by your great nation, is an inspiration to even greater effort.

With renewed thanks for your most sympathetic l etter,

Sincerely,
